

The Cobb County Master Gardeners have moved Lunch & Learn to the Cobb Water System at 662 S. Cobb Drive, Marietta, GA 30060 (corner of S. Cobb Dr. and Atlanta Rd.). The presentations will be in the Water Lab Building at the back of the site. Please enter from Atlanta Rd. and look for our signs. All programs begin at 12 o'clock noon and last for 1 hour. Bring your lunch and join us for fun and educational programs!

Lunch & Learn Programs – May through November 2011

May 20

Cathy Lacy and Lisa Bone "New Uses for Ordinary Things in the Garden"

Make your own "Garden Art". Cathy and Lisa will share clever ideas for turning almost anything into a beautiful addition to your garden. Many of their creations will cost only pennies.

June 17

Marge Igyarto "Birds in the Back Yard"

Add music to your garden. Learn how to attract a wide variety of birds by choosing plants which appeal to specific birds and by providing appropriate nesting and water sources. No matter the size of your garden you can create a "bird-friendly" habitat.

July 15

Linda Baird "Container Gardening"

Add an original touch to your patio or garden with unique containers found at your fingertips. Learn design, placement and plant selection tips to give your containers more "wow" power.

August 19

Eddie Rhoades "Composting"

Successful gardening begins with good soil. Learn about green manure cover crops, mulch, composting and AACT- Aerobically Activated Compost Tea.

September 9

Becky Blades "Native Plants in the Home Landscape"

Plants that call Georgia home can add beauty throughout the year to your garden. Plus they provide habitat for our native birds and butterflies that bring even more color to the garden.

October 14

Debra Stockton "Gardening for Butterflies"

Butterfly gardening with some traditional methods, as well as the use of some unconventional techniques. These methods also attract some other garden lovelies!

Nov 11

Jack Driskell "Holiday Decorating with Plants"

Bring the outside in by adding a truly traditional touch to your holiday. Learn tips for decorating with plants and natural materials from the garden.
